

Human Resources Strategy Targets

The Daigas Group strongly recognizes the need to further strengthen human capital initiatives to achieve sustainable growth. We position “support employees to shine in their roles” as a human resource strategy, which is a key pillar in the management strategy in the Medium-Term Management Plan 2026 announced in March 2024. We will drive forward (1) talent acquisition and development, (2) strategic deployment of talent to align with job requirements, and (3) revitalization of individuals, with KPIs set in addition to materiality indicators.

We will acquire and develop enough talent to allow them to operate appropriately with sound room on their plates, and both secure the quantity and improve the quality.

We will promote the strategic deployment of talent to align with job requirements, such as expanding talent management to all employees, so that we are more likely to both deploy employees to serve the purpose of business operations and achieve higher levels of employee satisfaction.

We will work on the revitalization of individuals, where we achieve both the creation of an environment that makes employees feel more rewarded and motivated and the maximization of the overall output.
